

PERFORMANCE SERIES

2018 JEEP WRANGLER JL

2.0 IFP

- New look & improved tune for light trail/on-road comfort
- 2.0" impact extruded, anodized 6061-T6 aluminum monotube design resists corrosion and dissipates heat faster than steel shocks
- Internal Floating Piston (IFP) separates oil from high pressure nitrogen charge to minimize cavitation
- Strong, 5/8" hard chrome plated steel shaft
- Quiet rubber bushings increase articulation
- Race-developed high-flow piston
- Redundant primary/wiper/scrapper seal pack system
- JM92 Advanced Suspension Fluid provides consistent performance at extreme temperatures
- Bolt-on, direct replacement for stock and aftermarket lift kits
- Shock absorber and steering stabilizer options available
