

## PERFORMANCE SERIES

## STABILIZER

### 2.0 STABILIZER TS

- 2.0" anodized aluminum body
- Through Shaft (TS) design
  - Eliminates directional push/pull of conventional steering stabilizers
  - Negates the need for dual opposing stabilizers
- 5/8" hard chrome plated steel shaft
- Includes trackbar relocation bolt and 1-3/8" tie-rod mounting clamp. Additional clamp sizes available for aftermarket tie-rods
- Direct replacement for stock and lifted Jeep Wrangler JK's
